

## ESCEO-Amgen Fellowship Award 2010

The **E**uropean **S**ociety for **C**linical and **E**conomic Aspects of **O**steoporosis and **O**steoarthritis (ESCEO) is pleased to announce **four Osteoporosis Fellowship Awards**, courtesy of a grant of Amgen.

The intent of these awards is to provide support to eligible institutions to develop and enhance the opportunities for physicians or PhD's training for careers in Osteoporosis.

Recipients will be selected primarily on the basis of the quality of the research proposal outlined in the application. Only one application per fellow may be submitted.

The Scientific Advisory Board of the European Society for Clinical and Economic Aspects of Osteoporosis (ESCEO) will review the applications.

This fourth ESCEO-Amgen Fellowship Awards will be presented during the "Fellowship Awards Ceremony" at IOF WCO-ECCEO10. The recipients will **each receive \$ 50,000 for 1 year** to support their fellowship stipend. (Institutions may be asked to certify that funds will be applied towards stipend only. These funds are non-renewable).

All **awards applications** and supporting materials must be submitted **on or before March 08, 2010** through this website and by mail. Late or incomplete packages will not be considered. Applications will be notified of the committee's decision no later than March 29, 2010.

## ESCEO-IOF/Servier Achievement Award – Pierre Delmas Prize

The **E**uropean **S**ociety for **C**linical and **E**conomic Aspects of **O**steoporosis and **O**steoarthritis (ESCEO) and the International Osteoporosis Foundation (IOF) will present for the first time in 2010 the new **Pierre Delmas Prize**, with the support of Servier.

Pierre Delmas, Professor of Medecine and Rheumatology at the University of Lyon, France, Director of the INSERM research unit "Pathophysiology of Osteoporosis", was an outstanding scientist who directed essential basic and clinical research in metabolic bone diseases, particularly in osteoporosis and osteoarthritis.

He was the Founding President of the IOF.

Servier, an independant research-orientated pharmaceutical company with a long history of relationships with researchers and clinicians, particularly in the field of osteoporosis and osteoarthritis, is proud to participate, as sole sponsor, in the creation of the **Pierre Delmas Prize**.

The **Pierre Delmas Prize** will be awarded every year to an individual for **outstanding and major scientific contributions to the study of bone and mineral diseases**, and consists of a grant of **€ 40 000 and a medal**.

The prize Committee will be composed of remarkable Scientists chosen within the IOF Committee of Scientific Advisors and ESCEO Scientific Advisory Board. The first **Pierre Delmas Prize** will be granted in May 2010 in Florence during the IOF WCO – ECCO Congress.

### Deadline for Applications: February 1, 2010

Application forms will be available: on the ESCEO website: [www.esceo.org](http://www.esceo.org)  
on the IOF website: [www.iofbonehealth.org](http://www.iofbonehealth.org)  
on the IOF-WCO website: [www.iofwco-ecceo10.org](http://www.iofwco-ecceo10.org)  
and on the Servier website: [www.servier.com](http://www.servier.com)
